

MICROLOCAL ANALYSIS AND INVERSE PROBLEMS

**Speaker: Gunther Uhlmann
University of Washington**

Time: Fri, Mar. 3, 10:00-11:00

Venue: Zoom: 618-038-6257, Password: SCMS

Abstract:

We will discuss some applications of microlocal analysis to inverse problems, in particular the back scattering problem, Calderon's problem and inverse problems for nonlinear equations.
