

SCMS Seminar

MULTIPLICATIVE NORMALITY

Prof. Tomasz Downarowicz

Wroclaw University of Science and Technology (Poland)

Lecture

Time: 3:00-4:00 pm., Friday, Oct. 27, 2017

Venue: Room 2001, East Main Guanghua Tower, Handan Campus

Abstract: We study properties of numbers (or via binary expansion, of 0-1 sequences) which are normal with respect to the action of the multiplicative semigroup of natural numbers. They are quite different from normal numbers in the standard meaning.
