Schedule

Friday, November 23

10:00	Ceremony		
	Lunch		
13:30-14:00	Lin, Shen 林梦	Sorbonne Universite	Range of tree-indexed random walks
14:10-14:40	Xu, Daxin 许大昕	California Institute of Technology	Generalised kloosterman sheaves and their p-adic variants
14:50-15:20	Xue, Hang 薛航	University of Arizona	The Gan--Gross--Prasad conjectures
	Tea Break		
15:50-16:20	Guo, Xiaoqin 郭小钦	University of Wisconsin-Madison	Random walks in balanced random environment and stochastic homogenization
16:30-17:00	Li, Zhongyang 李钟洋	University of Connecticut	Limit shape and height fluctuations of perfect matchings on square-hexagon lattice
	Banquet		

Saturday, November 24

10:00-10:30	Li, Penghui 李鹏辉	IST Austria	Some progress on Betti Geometric Langlands Conjecture in genus 1
10:40-11:10	Guo, Hailong 郭海龙	University of Melbourne	Superconvergent methods in finite element methods and their applications
11:20-11:50	Lau, ChungChing 刘宗政	University of Illinois at Chicago	On nef subvarieties
	Lunch		
	Free Discussion
