**Abstract:** In this paper, we obtain the boundary pointwise  $C^{1,\alpha}$  regularity for viscosity solutions of fully nonlinear elliptic equations. That is, if  $\partial \Omega$  is  $C^{1,\alpha}$  at  $x_0 \in \partial \Omega$ , the solution is  $C^{1,\alpha}$  at  $x_0$ . Our results are new even for the Laplace equation. Moreover, our proofs are simple.
