

***SINGULAR ORBITS AND CHAOS
IN TWO DIFFERENTIAL SYSTEMS***

Speaker: Xianyi Li

Zhejiang University of Science and Technology

Time: Wed, Nov 25, 10:00-11:00

Tencent room: 941 977 208

Abstract: In this talk we formulate some results for singular orbits and chaos occurring in two differential systems with higher dimensions. Meantime, some open problems will be presented.
