

# Focus Study Group in Algebraic Geometry

## Shanghai Center for Mathematical Science

The algebraic geometry group at Shanghai Center for Mathematical Science (SCMS) will form a focus study group in algebraic geometry this coming academic year, aiming to group a small number of top fresh college graduates to study and do research in algebraic geometry and related area, to prepare for their graduate study and research career in the near future.

The members of this group will take the position research assistant at SCMS, financially supported by corresponding faculties and SCMS. SCMS will provide office spaces, library access, study environment and research guidance, local or international, to members of this group.

For those planning to advance their research career in algebraic geometry or related area, we are sure that you will find this focus study group an ideal environment to continue your study plan during this uncertain period. In a few months, you will have the option to enroll in your chosen graduate program, or to enroll in the SCMS graduate program.

Please see <http://www.scms.fudan.edu.cn/Data/View/1472.html> for applying this research assistant position. If you have any questions, feel free to contact Zhi Jiang [zhijiang@fudan.edu.cn](mailto:zhijiang@fudan.edu.cn) and/or Zhiyuan Li [zhiyuan\\_li@fudan.edu.cn](mailto:zhiyuan_li@fudan.edu.cn).
