

ON THE ODP GAP CONJECTURE

Speaker: Linsheng Wang

Kaiyuan International Mathematical Sciences Institute

Time:Fri., Dec. 11th, 9:30-11:00

Venue:Room 102, SCMS

Abstract: IIn this talk, I would like to explain the proof of the ODP gap conjecture presented by Openai. The main idea concerns Li-Zhou's proof on the existence of minimal rational curves on Fano orbifolds, and an explicit study on certain Okounkov bodies.
