

***THE STRUCTURE AND DYNAMICS OF BIRATIONAL
AUTOMORPHISM GROUPS***

Speaker: Long Wang
Shanghai Center for Mathematical Sciences

Time: Fri, May 26th, 10:30 - 11:00

Venue: Room 102, SCMS

Abstract:

The birational automorphism group of an algebraic variety is a fundamental object in birational geometry. Its structure and dynamics are studied incessantly. In this talk, some recent progress and related problems will be mentioned.
